

# BREW with the crew

AT STOCKMAN'S RESTAURANT

Resilient Control & Instrumentation Systems (ReCIS), in collaboration with the Institute of Electrical & Electronics Engineers (IEEE) and the International Society of Automation (ISA), would like to invite anyone interested to "Brew with the Crew," an after-work event that will take place every third Thursday of the month at Stockman's Restaurant in Idaho Falls (1175 Pier View Drive – Snake River Landing). The purpose of the meetings is to allow opportunity for instrumentation, control and intelligent systems researchers and practitioners to interact with others in their community, both inside and outside of INL. In this informal forum, people are not required to provide a documented presentation, but instead to share the nature of their research and interests and to possibly include some interesting stories along the way.

Meeting topics are scheduled as shown below. The brewing will begin at 4:30 p.m. with the topical discussion starting at 5 p.m. and adjourning around 6:00 p.m. Finger food will be provided to keep the stomachs from growling.

April 16	Chris Ritter	<i>Digital Engineering</i>
May 21	Piyush Sabharwall	
June 18	Char Sample	<i>Data Resilience</i>
July 16	Arup Bhuyan	<i>5G Wireless</i>
August 20	Damon Hartley	<i>Dynamic Systems Modeling</i>
September 17	Zach Spielman	<i>Cognitive Subject</i>
October 15	Kelly Wilson	<i>Infrastructure Resilience Planning</i>
November 19	Rob Erbes
